I'm so mortified about the number of times I've had to call you this week—so sorry!!! I should have better anticipated how all of this was going to go down so we could have been more efficient. Thanks again for being so responsive and helpful—really appreciate it. I wanted to try to capture what we needed to go over at 11 so we could be as quick as possible—please add to/modify this:

My sense for agenda this afternoon:

Not Responsive

- □□□□□□ Haystack

- From workplan document: “Scans conducted August. Preliminary results indicate about 100 acres of contaminated soil. Offsite migration: NE side into wash across road possible off reservation, and W side waste rock pushed off mesa into slot canyon with resident below. Pending completion RSE report.”

- Structure (opened 2-15-2015)
